

OTOLARYNGOLOGY—HEAD & NECK SURGERY

Michael Garron Hospital Rotation Goals and Objectives (PGY-5)

The following is a list of goals and objectives which should be attained at the conclusion of the PGY-5 rotation at Michael Garron Hospital.

By the end of the rotation the resident should be able to

Communicator

1. Prepare clear and concise notes and reports.
2. Discuss all basic and advanced Otolaryngology procedures with patients and their families in a clear and understandable form, including risks/benefits, informed consent, and post-operative care.

Collaborator

1. Present histories, physical findings, and management plans to consultants in an organized, efficient, and confident manner.
2. Identify situations where consultation of other physicians or health care professionals is appropriate.
3. Demonstrate collegial and professional relationships with all co-workers and colleagues.

Leader

1. Demonstrate ability to lead a health care team.
2. Utilize resources effectively to balance patient care duties, learning needs, educational/teaching responsibilities and outside activities.

Health Advocate

1. Recognize and respond to opportunities for advocacy within Otolaryngology, both for your patients as well as for the community in which we practice (e.g., smoking cessation, alcohol consumption).

Scholar

1. Actively participate in the teaching of junior colleagues and other healthcare professionals (didactic, in clinics, and on wards/in OR).
2. Demonstrate the evolving commitment to, and the ability to practice, life-long learning.

Professional

1. Deliver highest quality care with integrity, honesty, and compassion.
2. Practice medicine and Otolaryngology in an ethically responsible manner.
3. Endeavour to develop an appropriate balance between personal and professional life to promote

OTOLARYNGOLOGY—HEAD & NECK SURGERY

personal physical and mental health/wellbeing as an essential to effective, life-long practice.

4. Discloses an adverse event or medical error in appropriate circumstances.
5. Keep up-to-date log of surgical procedures and clinics attended.

OTOLARYNGOLOGY—HEAD & NECK SURGERY

Michael Garron Hospital Rotation Goals and Objectives (PGY-5)

Medical Expert

	SKILL	Achieved Satisfactorily (Y/N)
General Skills	1. Promptly and effectively assess patients with airway emergencies, including airway obstruction, and supervise junior colleagues in this situation	
	2. Participate in the post-operative ward and office management of patients who have undergone all forms of otolaryngologic procedures	
	3. Have a detailed plan of action for intraoperative and postoperative complications and be able to explain the rationale for each method	
Neurotology & Otology	1. Demonstrate expertise in assessing and managing conductive and sensorineural hearing loss, and the counselling of patients regarding treatment options	
	2. Demonstrate an understanding of the principles and application of audiometry, auditory brainstem response (ABR), Otoacoustic Emissions (OAEs), and electronystagmography (ENG)	
	3. Perform tympanoplasty and mastoidectomy with limited consultant intervention	
General Head and Neck Surgery	1. Perform the following (circle any procedure that you do not feel sufficiently comfortable with): lymph node and neck mass biopsy; excision of submandibular glands, branchial cleft cysts and thyroglossal duct cysts; excision of oral cavity lesions; parotidectomy, neck dissection, thyroidectomy and parathyroidectomy, with increasing degree of autonomy	
Head and Neck Oncologic Surgery	1. Rapidly stage malignancies of the head and neck and develop approaches to management	
	2. Provide comprehensive management of complications from Head and Neck surgery with limited consultant intervention	
	3. Demonstrate comprehensive understanding and management of Head and Neck emergencies such as airway obstruction and trauma	
Laryngology	1. Perform indirect rigid laryngoscopy, as well as rigid suspension laryngoscopy	
	2. Develop a differential diagnosis and management plan for Dysphagia	
	3. Diagnose and manage pathology of the glottis (e.g. nodules, cysts)	
	4. Provide non-medical management of voice disorders (e.g. behavioural therapy)	
	5. Provide management of vocal cord paralysis, including investigation, medical therapy, and surgical therapy	
Facial Plastic & Reconstructive Surgery	1. Diagnose and treat cutaneous malignancies including appropriate reconstruction with limited consultant supervision	
	2. Conduct an assessment for septorhinoplasty, including demonstrating an appreciation of the nasal valve, open vs. closed approaches, as well as	

OTOLARYNGOLOGY—HEAD & NECK SURGERY

	grafting techniques	
	3. Perform septorhinoplasty with direct consultant supervision	
	4. Provide management of patients suffering from facial trauma including the techniques of soft tissue repair and closed/open reduction of facial fractures	
Paediatric Otolaryngology	1. Assess children with otolaryngology emergencies and manage them with limited consultant intervention	
	2. Interpret conventional audiometry and tympanometry in children	
	3. Efficiently and safely perform adenotonsillectomy operations in children, and understand indications for and contraindications for doing so	
	4. Provide safe and efficient myringotomy and tympanostomy tube placement, as well as demonstrating an understanding of the indications for doing so	
Rhinology	1. Demonstrate an understanding of Sinonasal anatomy and common variants	
	2. Provide diagnosis and management of sino-nasal pathology, and demonstrate an understanding of current concepts in management algorithms	
	3. Provide surgical management of, and utilize appropriate approaches to, common sinus disease states, and demonstrate comfort with image guidance systems for intraoperative navigation	
	4. Recognize and manage complications of rhinologic intervention
