

Sinai Health System Rotation Goals & Objectives – (PGY3)

The following is a list of goals and objectives which should be attained at the conclusion of the PGY-3 rotation at Mount Sinai Hospital.

At the end of the rotation the resident will be able to

Communicator

1. Prepare clear and concise notes, discharge summaries, operative reports, and present effectively in organized rounds and seminars.
2. Discuss all common Otolaryngology procedures with patients and their families in a clear and understandable form, including risks/benefits, informed consent, and post-operative care.

Collaborator

1. Present histories, physical findings, and management plans to consultants in an organized, efficient, and confident manner.
2. Identify situations where consultation of other physicians or health care professionals is appropriate.
3. Demonstrate collegial and professional relationships with all co-workers and colleagues.
4. Recognize and respect the expertise and roles of allied health professionals such as speech language pathologists, audiologists, technicians, nurses, and clerical staff.

Leader

1. Demonstrate an understanding of the importance of resource management, and utilize resources effectively to balance patient care duties, learning needs, educational/teaching responsibilities and outside activities.
2. Accurately identify criteria for patient admission to hospital in the urgent/emergent situation as well as the implications of such decisions.

Health Advocate

1. Recognize and respond to opportunities for advocacy within Otolaryngology, both for your patients as well as for the community in which we practice (e.g., smoking cessation, alcohol consumption).
2. Demonstrate familiarity with important determinants of health affecting head and neck surgery such as smoking and alcohol consumption.

Scholar

1. Develop a personal Educational strategy.
2. Demonstrate an understanding of the principles of adult learning and helps others learn by providing guidance, teaching and by giving constructive feedback.
3. Demonstrate the evolving commitment to life-long learning and evidence-based practices.

Professional

1. Deliver highest quality care with integrity, honesty, and compassion.
2. Practice medicine and Otolaryngology in an ethically responsible manner.
3. Recognize limitations, and seek assistance when necessary.
4. Keep an up-to-date log of surgical procedures and clinics attended.

Sinai Health System Rotation Goals & Objectives – (PGY3)

Medical Expert

	SKILL	Achieved Satisfactorily (Y/N)
General Skills	1. Demonstrate expertise in the preoperative and postoperative management of patients who have undergone otolaryngology-head and neck surgery, including office management.	
	2. Interpret diagnostic imaging of all head and neck sites.	
	3. Demonstrate familiarity with the indications for common and advanced otolaryngology-head and neck surgical procedures, as well as the risks and benefits for each.	
	4. Demonstrate competency in open biopsy of accessible head and neck lesions.	
	5. Perform open tracheotomies with assistance, requiring minimal guidance.	
	6. Perform effective anterior and posterior nasal packing for epistaxis.	
Neurotology & Otology	1. Perform a detailed, thorough examination of the Otologic/Vestibular system.	
	2. Interpret conventional audiometry and tympanometry.	
	3. Demonstrate an organized approach to management of facial nerve disorders.	
	4. Accurately diagnose benign positional vertigo and demonstrate a rational approach to its treatment.	
General Head & Neck Surgery	1. Perform the following: fine needle aspiration of thyroid/neck mass, thyroidectomy and parathyroidectomy, and neck dissection.	
Head & Neck Oncologic Surgery	1. Assess and stage malignancies of the head and neck.	
	2. Manage Head and Neck complications and emergencies with supervision.	
	3. Perform panendoscopy under supervision, with interpretation of findings.	
	4. Demonstrate an approach to post-operative complications seen in head and neck oncology/endocrine patients, including management.	
Laryngology	1. Demonstrate a diagnostic approach for, and management of, vocal cord paralysis.	
	2. Perform rigid suspension laryngoscopy.	
Rhinology	1. Demonstrate a diagnostic approach for and management of	

Sinai Health System Rotation Goals & Objectives – (PGY3)

	common sino-nasal lesions.	
	2. Perform biopsy of sino-nasal lesion.	
	3. Perform diagnostic nasal endoscopy (rigid and flexible) including preparation of the nose and accurate interpretation of findings	
	4. Demonstrate an approach to the management of nasal obstruction, including the indications for surgery.	
	5. Demonstrate an understanding of the indications and contraindications for endoscopic sinus surgery, and the associated risks and possible complications.	
Facial Plastic & Reconstructive Surgery	1. Excise cutaneous lesions of the head and neck, including appropriate closure/reconstruction of the resulting defect (local and regional flaps).	
	2. Demonstrate basic understanding of the hierarchy of reconstructive options for defects in the head and neck. Formulate plan for reconstruction of head and neck defects with attention to form and function.
