Cocktails: 6:00 pm

Dinner: 7:00 pm

Course Description

This course is designed for the practicing otolaryngologist who wishes to enhance his or her knowledge of various topics spanning the different subspecialties of Otolaryngology-Head & Neck Surgery. The material will be presented via didactic lectures followed by audience participation in question and answer sessions along with panel discussions on management of interesting cases.

Please join us the evening before OtoUpdate to catch up with friends and colleagues at our ***Alumni & Friends Dinner*** on **Friday February 2, 2018** at the University of Toronto's Hart House. We will be honouring the resident class of 1992. All alumni, faculty, residents, fellows, colleagues, spouses and significant others are most welcome to attend.

Course Objectives

After active participation in this update meeting, participants will be able to:

- Discuss the management of recalcitrant otitis externa
- Describe the algorithm for frontal sinus surgery
- Communicate the up to date knowledge on opioid use after surgery
- Understand molecular testing for diagnosis of thyroid disease
- Assess a patient with aging voice
- Consider the pros and cons of biologics use in treatment of asthma and nasal polyps
