**UNIVERSITY OF TORONTO**

## COURSE DESCRIPTION

This course is designed for the practicing otolaryngologist who wishes to enhance his or her knowledge of various topics spanning the different subspecialties of otolaryngology-head & neck surgery. The material will be presented via didactic lectures followed by audience participation in question and answer sessions along with panel discussions on management of interesting cases.

Please join us the evening before OtoUpdate to catch up with friends and colleagues at our ***Alumni & Friends Dinner*** on **Friday February 8, 2019** at the University of Toronto's Faculty Club. We will be honouring the resident class of 1993. All alumni, faculty, residents, fellows, colleagues, spouses and significant others are most welcome to attend.

## COURSE OBJECTIVES

After active participation in this update meeting, participants will be able to:

- Discuss the new management options for tinnitus
- Describe the algorithm for the treatment of facial pain
- Communicate the up to date knowledge on laryngeal dysfunction including voice therapy and respiratory retraining
- Assess a child with caustic ingestion
- Discuss the details of indications for vestibular testing
