Otolaryngology – Head & Neck Surgery
UNIVERSITY OF TORONTO

Spring/Summer 2024

CHAIR'S MESSAGE

I want to wish all of you a wonderful and restful summer. I hope you all have an opportunity to spend time with family and friends.

Our world-class department has enjoyed yet another tremendous six months of academic and clinical excellence. I am very proud to share this newsletter with you which highlights all of your incredible work.

I would like to welcome Dr. Lisa Robinson, the new Dean of the Temerty Faculty of Medicine, and thank Dr. Patricia Houston for her tremendous leadership as Interim Dean. The Temerty Faculty of Medicine is currently ranked fourth in the world for clinical medical education, and we should be extremely proud to be contributing members of its distinguished faculty.

The last six months have seen many of our faculty receive notable distinctions for clinical and academic excellence. I would like to congratulate Dr. Peter Adamson who was the recipient of the 2024 *Teasdale-Corti Humanitarian Award* from the Royal College of Physicians and Surgeons of Canada. This award is a wonderful acknowledgement of Dr. Adamson's lifelong commitment to global outreach. Dr. Yvonne Chan was the recipient of the *Colin Woolf Award for Long-term Contributions to Continuing Professional Development*. This department has benefited immensely from Dr. Chan's continued commitment to CPD, and she has been instrumental in maintaining the outstanding quality of our offerings. Dr. Alain Dabdoub, our Vice Chair Research, was awarded a \$1.1 million grant from the US Department of Defense's Hearing Restoration Research Program in support of his innovative research on inner ear regeneration. Finally, our very own Dr. Rosemary Martino has been appointed the Chair of the Department of Speech Language Pathology at the University of Toronto. This is a tremendous accomplishment, and I look forward to even stronger collaborations between our departments as we move forward.

I would like to once again thank Vicky Papaioannou for her many years of service as our Head of the Division of Audiology. Vicky has moved on to new and exciting opportunities with the Peel District School Board, and we wish

Our newsletter is published twice annually in June and December.

Leading Innovation. Achieving Impact

her tremendous success. I am thrilled to welcome Susan Druker as our new Head of the Division of Audiology. Susan assumed this important role in the spring and is the newest member of our dynamic executive. Congratulations.

Our department's commitment to excellence in education was on full display this year. I am tremendously proud that ten of our faculty members and five of our residents, whose names are included in the newsletter, were selected as recipients of the *MD Program Teaching Excellence Award* for the 2022-23 academic year. I wish to extend my heartfelt thanks and tremendous appreciation to each of these award winners. I would also like to congratulate Dr. Nikolaus Wolter who was the recipient of our department's *Faculty Teacher of the Year Award*. Dr. Wolter has been a consistently outstanding educator and an unwavering advocate for our residents. He is most deserving of this recognition. Finally, congratulations to Dr. Brian Shin who was selected the *Resident Teacher of the Year*. I look forward to Brian's contributions to our department as he begins his career.

The department hosted several wonderful academic events this past six months. I would like to thank Dr. Yvonne Chan and the entire organizing committee for a wonderful Otolaryngology Update. This year's update, held in February, was outstanding and extremely well attended. Congratulations to all who participated. We also had a wonderful Percy Ireland Academic Day. Our Distinguished Professor this year was Dr. Cherie Ann Nathan, who gave an inspirational oration and presided over the research competition. The evening prior we had a wonderful dinner at the Faculty Club, where we welcomed our very own Dr. Everton Gooden as our Guest of Honour. The academic research day was truly remarkable. The quality and impact of the research our residents, fellows, and postgraduate students are doing is truly amazing. Among the many awards given at this year's proceedings was the inaugural *Dr. Dale Brown Peer Wellness Advocate Award*. I would like to sincerely thank our distinguished alumnus Dr. Brian Rotenberg for establishing this wonderful award in Dr. Brown's honour. Finally, in June, we hosted the 2024 Joseph Wong/Smile China Lecture. It was a privilege to welcome Dr. James Netterville to the department. Dr. Netterville's lifelong commitment to global outreach was self-evident during his wonderful grand round presentation. The lecture was preceded by a wonderful get-together and dinner with Dr. Wong's family and friends.

Our department is renowned for its exceptional faculty. This year two of our faculty were successfully promoted to the rank of full professor. This is no small accomplishment, particularly at the University of Toronto. I would like to congratulate both Drs. John de Almeida and Kevin Higgins for this recognition of their career-long dedication to academia and their contributions to our field. There will be a reception held in their honour this fall at Massey Hall. I hope to see all of you there.

The past six months have seen the addition of three new faculty to the department. I would like to extend a warm welcome to Drs. Terence Fu and Deanna Lammers, who were appointed clinical adjunct faculty. I am also thrilled to welcome Dr. John Lee, who, after an Otology fellowship in Australia, has returned to join the clinical faculty at Mount Sinai Hospital. John will be a wonderful addition to our department and our division of Otology-Neurotology.

Our incredible residents are the lifeblood of our program and, as always, they continue to be a great source of pride. Drs. Hugh Kim and Tanya Chen were winners of the Poliquin Resident Research Competition at the CSOHNS Annual Meeting in Montreal. Additionally, Dr. Pouyan Namavarian was recognized for the best temporal bone drilling at the National Temporal Bone Course held in Toronto in April. A full list of resident awards is included in this newsletter for your review. I would like to take a moment to thank all the faculty who have mentored our tremendous learners and enabled such success. I would also like to thank Dr. Chantal Li for her wonderful year as our chief resident and welcome Dr. Justine Philteos who will take over as of July. Congratulations, Justine, on this wonderful recognition from your peers!

I am very happy to welcome our new PGY1s who successfully matched to our program after an incredibly competitive search. We were fortunate to recruit the cream of the crop. Welcome Drs. Ben Levy, Alyssa Li, Ga-way Ma, Kimya Manouchehri and Elizabeth Siciliani to the department. With every incoming class, we must say farewell to our talented graduates. Congratulations to Drs. Fahad Aldhahri, Adam Kwinter, Chantal Li, Chris Noel, and Grace Yi. We wish them tremendous success and will be watching their careers with pride.

This newsletter marks the end of my second year as the George and Helen Vari Professor and Chair of this world-leading department. It is a true privilege to serve such a dynamic and talented faculty. As always, I am truly thankful to all of you, the members of our executive, our faculty, residents, fellows, and alumni, for your contributions, dedication, and sacrifice. Our success is a collective achievement that we should all take pride in.

U of T ranked 2nd among North American Public Universities

The University of Toronto is ranked first in Canada, second among North American public universities and among the top 25 institutions globally in the latest QS World University Rankings.

U of T continued to be recognized as one of the world's leading public universities in the highly regarded annual ranking, placing just behind the University of California, Berkeley in North America.

[Read more](#)

U of T has been ranked 17th Globally, up one spot from last year

The 2024-25 edition of the Best Global Universities Rankings, which focuses on research performance, also placed U of T 10th among public universities worldwide and fifth among all public institutions in North America. U of T remained Canada's top-ranked university in the closely watched international ranking.

32nd ANNUAL PERCY IRELAND DINNER & ACADEMIC DAY

May 2-3, 2024

Our [Visiting Professor Dr. Cherie-Ann Nathan](#) gave the [Percy Ireland Oration](#) on Friday May 2, 2024
[Dr. Everton Gooden](#) was our [Guest of Honour](#).

The Dinner was held at the University of Toronto's Faculty Club on the Thursday evening.

The Academic Day took place the following day at the Bahen Centre, University of Toronto.

ANNUAL DEPARTMENTAL AWARDS ~ 2024

Percy Ireland Presentation Awards

Category 1 - Work undertaken by Graduate Degree Students: Awarded to **Daniel Mul** for his project
“Smart Materials for Button Battery Impaction Protection”

Category 2 - Work undertaken by PGY2 Residents during clinical rotation: Awarded to **Dr. Hugh Kim** for his project
“Finite-Element and Benchtop Analysis of Mandibular Osteotomy Angles to Optimize Plate Stress for Patients Undergoing Simulated Reconstruction”

Category 3 - Work undertaken by PGY3 Residents during clinical rotation: Awarded to **Dr. Elysia Grose** for her project
“Health Literacy in the Otolaryngology Patient Population”

Category 5 - Work undertaken by post-residency clinical/research fellows and postdoctoral fellows:
Awarded to **Dr. Jennifer Spiegel** for her project “First Results of a Multi-Centre Phase I/II Randomized Controlled Trial: Intratympanic N-Acetylcysteine (NAC) Injections for Prevention of Cisplatin-Induced Ototoxicity in Head and Neck Cancer Patients”

Resident Awards

Chapnik, Freeman & Friedberg Clinical Scientist Program Award....[Dr. R. Jun Lin](#)

Dr. Dale Brown Peer Wellness Advocate Award.....[Dr. Chantal Li](#)

Dr. Ian Witterick Excellence in Mentorship and Innovation Award....[Dr. Tanya Chen](#) and [Dr. Christopher Noel](#)

Dr. Ian Witterick Research Award in Otolaryngology-HNS....[Dr. Tanya Chen](#) and [Dr. Justine Philteos](#)

Freda Noyek Otolaryngology Merit Award....[Dr. Grace Yi](#)

Faculty Promotions

Congratulations to Drs. **John de Almeida** and **Kevin Higgins**
for their academic promotions to Full Professor

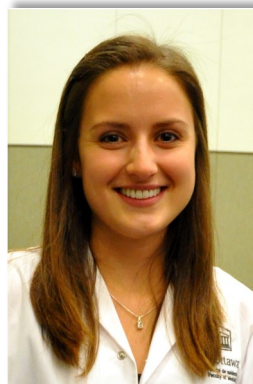

This great honour represents the culmination of tremendous work, impact, and prominence in the field.
A celebration in their honour will be held in October 2024.

Newly Recruited Faculty

Clinical Adjunct

Terence Fu
Lecturer

Deanna Lammers
Lecturer

Full-time

Jong Wook (John) Lee
Assistant Professor

Welcome to the department

Peter Adamson

Recipient of the 2024 *Teasdale-Corti Humanitarian Award*. This award recognizes an individual who goes beyond the norms of routine practice to provide health care.

Yvonne Chan

Awarded the 2022-23 *Colin Woolf Award for Long-Term Contributions to Continuing Professional Development*. This award is so well-deserved and an acknowledgement of her impact and dedication. As our departmental CPD lead she has helped elevate our educational offerings to new heights and we owe her tremendous thanks.

Alain Dabdoub

Has been awarded a \$1.1M grant from the US Department of Defense's Hearing Restoration Research Program for his grant entitled "Novel Therapeutic and Delivery Strategies for Primary Auditory Neuron Regeneration".

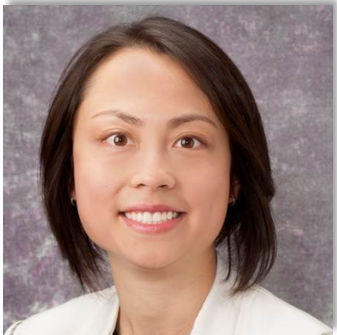

Susan Druker

Appointed as Head of our Division of Audiology. A clinical audiologist at the Hospital for Sick Children with over 30 years of experience. A graduate of McGill University's School of Communication Disorders, Susan's passion for audiology and continuous learning have led her to grow her scope of practice to include cochlear implants, bone conduction hearing aids, and provincial Infant Hearing Program protocols for diagnostic audiology and rehabilitation.

Kevin Higgins

Received recognition for his commitment and contribution to the Program in Evidence-based Care (PEBC) over the past year, in particular for participation as expert panel member on #5-2 Version 2 Endolaryngeal surgery vs radiotherapy for early glottic cancer.

R. Jun Lin

AMOSO innovation fund of \$110,000 for her research project entitled "Defining the Transcriptomic, Cellular, and Genetic Architecture of Idiopathic Subglottic Stenosis".

Rosemary Martino

Has been appointed the Chair of the Department of Speech-Language Pathology at the University of Toronto.

John Rutka

Gave the Dohlman Lecturer on May 10, 2024. His presentation was entitled "The Gosta Dohlman Lecture: His Legacy, Achievements and the Evolution of Canal Based Surgery in Neurotology".

Congratulations

Researchers from Sinai Health and U of T have gleaned new insights into how thyroid cancer could be more effectively treated.

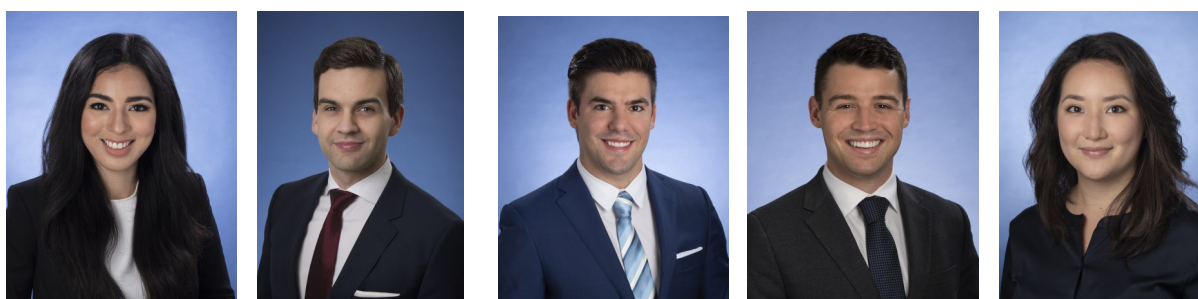

The study, which looked at thyroid tumour tissues and thyroid nodule biopsies from 620 patients at Mount Sinai Hospital from 2016 to 2022, examined whether differences in patients' RAS genomic variants were reflected in the status of their tumours. It also investigated the presence of the variant BRAF V600E and TERT promoter variants in the patient's samples. The results were published recently in JAMA Network.

Fellows Welcome BBQ 2024

The annual welcome BBQ for the incoming Fellows occurred on July 18, 2024 at the Enepekides' residence.

Welcome to the program!

**Hugh Kim
&
Tanya Chen**

Recipients of this year's
Poliquin Resident Research Competition
during the
CSO-HNS annual meeting
in Montreal in June 2024.

Pouyan Namavarian

Recognized for the
best temporal bone drilling
at the National Temporal Bone Course
held in Toronto in April 2024.

Ryan Daniel, Gianluca Sampieri and Vincent Lin

participated in the Annual Docs on Ice Charity Hockey Tournament in February 2024 in Ottawa,
raising money for Camp Misquah, a camp for special needs children (docsonice.ca).

Their team, the Thyroid Storm, battled it out for a 3-1 record, good for 2nd place in their division!

We are delighted to announce that **Dr. Justine Philteos** has been elected by her co-residents to serve as the **2024-25 Chief Resident** for the Department of Otolaryngology-Head & Neck Surgery.

Congratulations Justine! Your strong leadership and advocacy skills have been recognized by your peers.

We look forward to working with you in your new role as Chief Resident.

We would also like to acknowledge and sincerely thank **Dr. Chantal Li** for her service as 2023-24 Chief Resident.

Dr. Li diligently and effectively served the residents and the Department over the past year. Thank you, Dr. Li, for your hard work and numerous contributions!

Women in Otolaryngology

Celebrating our Women in Otolaryngology with a resident social. Talented Residents today, future starts tomorrow.

Held on Thursday February 29, 2024 @ Sin & Redemption Pub in Toronto

Congratulations

Resident's National Temporal Bone Course 2024

April 24-26, 2024 @ Skills Lab

The course was a tremendous success! Residents gained invaluable hands-on experience and enjoyed a series of enlightening lectures. A huge thank you to Drs. Adrian James (Toronto), Jordan Hochman (Manitoba), and Allan Ho (Alberta) for their outstanding leadership. Thank you also to faculty who took time out of their busy day to lecture and to the sponsors who helped made this event possible.
