| | EPAs Mapped to this rotation: | Total # of Entrustments Expected by the end of COD |
|----|---|--|
| 1. | COD 1 Managing post-operative surgical complications or adverse events | 2 |
| 2. | COD 2 Managing an inpatient surgical service | 2 |
| 3. | COD 3 Participating in (or leading) quality improvement initiatives to enhance the system of patient care | 2 |
| 4. | COD 4 Performing surgical drainage of deep neck space infections in adult and pediatric patients (JC) | 2 |
| 5. | COD 5 Assessing patients with dysphagia or swallowing disorders (JC) | 2 |
| 6. | COD 8 Providing advanced management for patients with epistaxis (SC) Part A Patient Assessment Part B Procedure | Part A 2 Part B 2 |

| | EPAs Mapped to this rotation: | Total # of Entrustments Expected by the end of COD |
|-----|--|--|
| 7. | COD 9 Assessing and managing patients presenting with rhinosinusitis Part A Initial Assessment Part B Procedure – Basic endoscopic sinus surgery (JC) Part C Procedure – Complete endoscopic sinus surgery (SC) Part D Follow-up with sinus cavity debridement | Part A 2 Part B 2 Part C 2 Part D 2 |
| 8. | COD 10 Providing surgical management for patients with nasal septal deformity (JC) | 2 |
| 9. | COD 11 Providing surgical management for patients with chronic airway obstruction (SC) | 2 |
| 10. | COD 12 Assessing and providing surgical management for patients with dysphonia Part A Patient assessment Part B Procedure | Part A 2 Part B 2 |
| 11. | COD 13 Assessing and providing surgical management for patients with mucosal squamous cell carcinoma of the head and neck Part A Patient assessment Part B Surgical management | Part A 2 Part B 2 |
| 12. | COD 14 Assessing and providing surgical management for patients with disorders of the thyroid glands and/or parathyroid glands Part A Patient assessment Part B Procedure | Part A 2 Part B 2 |
| 13. | COD 15 Performing superficial parotidectomy surgeries (SC) | 2 |
| 14. | TTP 1 Providing after hours coverage for an Oto-HNS practice Part A Patient Management Part B Working with referring physician | Part A 2 Part B 2 |
| 15. | TTP 2 Coordinating, organizing and executing the surgical day of Core procedures | 2 |
| 16. | TTP 3 Organizing and managing general Oto-HNS clinics | 2 |
| 17. | TTP 4 Participating in and/or leading educational or administrative activities | 2 |
| 18. | TTP 5 Monitoring one's own practice and performance for quality assurance and improvement | 2 |
| 19. | TTP 6 Developing a personal learning plan for continuing personal and professional development | 2 |

| | Other assessments during this rotation: | Tool Location / Platform (e.g. POWER, Entrada): |
|----|--|--|
| 1. | ITAR | POWER |
| 2. | Operative Log | Excel Workbook |

| | Key Objectives for this Rotation: By the end of this rotation the resident should be able to | CanMEDS Role(s): |
|----|--|-------------------------|
| 1. | Effectively supervise junior residents through special procedures in the emergency room, bedside, and simple operative procedures (e.g., tracheotomies, myringotomies, peritonsillar abscess drainage, nasal packing, insertion of nasogastric tubes, tracheotomy tube changes). | Medical Expert |
| 2. | Demonstrate an understanding of the comprehensive management strategies for thyroid cancer including pre and post operative care, intraoperative care, investigations, and the role for adjuvant therapies (e.g., radioactive iodine, external beam radiation). | Medical Expert |
| 3. | Demonstrate an understanding of the comprehensive management strategies for mucosal head and neck cancers including pre and post operative care, investigations, and the role for adjuvant therapies (radiotherapy, chemotherapy). | Medical Expert |

| | Key Objectives for this Rotation: By the end of this rotation the resident should be able to | CanMEDS Role(s): |
|----|---|-------------------------|
| 4. | Perform a basic neck ultrasound with specific focus on evaluating a thyroid mass, central and lateral neck disease. | Medical Expert |
| 5. | Create a differential diagnosis for various rhinologic problems (rhinorrhea, nasal obstruction, anosmia, nasal mass, etc.). | Medical Expert |
| 6. | Perform nasal endoscopic procedures such as antrostomies, ethmoidectomies, sphenoidotomies, and SPA ligation. | Medical Expert |
| 7. | Present histories, physical findings, and management plans to consultants in an organized, efficient, and confident manner. | Collaborator |
| 8. | Identify situations where consultation of other physicians or health care professionals is appropriate. | Collaborator |
| 9. | Demonstrate collegial and professional relationships with all co-workers and colleagues. | Collaborator |
