	EPAs Mapped to this rotation:	Total # of Entrustments Expected by the end of COD
1.	COD 1 Managing post-operative surgical complications or adverse events	2
2.	COD 2 Managing an inpatient surgical service	2
3.	COD 3 Participating in (or leading) quality improvement initiatives to enhance the system of patient care	2
4.	COD 4 Performing surgical drainage of deep neck space infections in adult and pediatric patients (JC)	2
5.	COD 5 Assessing patients with dysphagia or swallowing disorders (JC)	2
6.	COD 8 Providing advanced management for patients with epistaxis (SC) Part A Patient Assessment Part B Procedure	Part A 2 Part B 2
7.	COD 9 Assessing and managing patients presenting with rhinosinusitis Part A Initial Assessment Part B Procedure – Basic endoscopic sinus surgery (JC) Part C Procedure – Complete endoscopic sinus surgery (SC) Part D Follow-up with sinus cavity debridement	Part A 2 Part B 2 Part C 2 Part D 2
8.	COD 10 Providing surgical management for patients with nasal septal deformity (JC)	2
9.	COD 11 Providing surgical management for patients with chronic airway obstruction (SC)	2

	EPAs Mapped to this rotation:	Total # of Entrustments Expected by the end of COD
10.	COD 12 Assessing and providing surgical management for patients with dysphonia Part A Patient assessment Part B Procedure	Part A 2 Part B 2
11.	COD 15 Performing superficial parotidectomy surgeries (SC)	2
12.	COD 17 Managing patients following facial trauma	2
13.	TTP 1 Providing after hours coverage for an Oto-HNS practice Part A Patient Management Part B Working with referring physician	Part A 2 Part B 2
14.	TTP 2 Coordinating, organizing and executing the surgical day of Core procedures	2
15.	TTP 3 Organizing and managing general Oto-HNS clinics	2
16.	TTP 4 Participating in and/or leading educational or administrative activities	2
17.	TTP 5 Monitoring one's own practice and performance for quality assurance and improvement	2
18.	TTP 6 Developing a personal learning plan for continuing personal and professional development	2

	Other assessments during this rotation:	Tool Location / Platform (e.g. POWER, Entrada):
1.	ITAR	POWER
2.	Operative Log	Excel Workbook

	Key Objectives for this Rotation:	CanMEDS Role(s):
1.	Perform percutaneous tracheotomies.	Medical Expert
2.	Accurately assess patients suffering temporal bone trauma including ordering appropriate investigations.	Medical Expert
3.	Demonstrate refined knowledge of paranasal sinus anatomy and perform surgical techniques of nasal septoplasty, endoscopic nasal biopsies, inferior turbinate reduction, polypectomy, uncinctomy, antrostomy, ethmoidectomy, and sphenoidotomy with decreasing degree of direct consultant supervision.	Medical Expert
4.	Perform surgical treatments for epistaxis	Medical Expert
5.	Perform parotidectomy, neck dissections, thyroidectomy and parathyroidectomy with increasing degree of autonomy.	Medical Expert
6.	Provide appropriate diagnosis, investigations, and management of voice disorders, including dysphonia, glottic pathology (e.g. nodules, cysts), spasmodic dysphonia (e.g. botox), vocal cord paralysis.	Medical Expert
7.	Perform rigid suspension laryngoscopy and microlaryngeal surgery with microlaryngeal instruments, CO2 Laser, microdebrider.	Medical Expert
8.	Perform or assist with thyroplasty and other laryngeal framework surgeries with supervision.	Medical Expert
9.	Demonstrate an understanding of the principles of adult learning and help others learn by providing guidance, teaching and by giving constructive feedback.	Scholar
