

OTOLARYNGOLOGY – HEAD & NECK SURGERY ROTATION PLAN

NAME OF ROTATION: Senior Core & Transition to Practice – University Health Network

FOCUS OF THIS ROTATION

- Core clinical rotation focusing on head and neck surgical oncology, otology, and neurotology.

CBD stage(s) for this rotation:

- Core of Discipline – COD
- Transition to Practice – TTP

Length of this rotation:

- 3 Blocks

PGY Level(s) for this rotation:

- PGY5

Locations for rotation:

- University Health Network (UHN)

Required training experiences included in this rotation

- COD 1.1 Clinical Training Experiences
 - COD 1.1.1 Outpatient Clinics; new consultations and follow patients
 - COD 1.1.2 Inpatient Service
 - COD 1.1.3 Operating areas
 - COD 1.1.4 Consultative service to the emergency department and other clinical services

Other training experiences that may be included in this rotation

- Grand rounds
- Journal Club
- On-call per schedule
- Hospital Rounds
- Monthly Otology Rounds for Residents
- Multidisciplinary Tumour Board

	EPAs Mapped to this rotation:	Total # of Entrustments Expected by the end of COD
1.	COD 1 Managing post-operative surgical complications or adverse events	2
2.	COD 2 Managing an inpatient surgical service	2
3.	COD 3 Participating in (or leading) quality improvement initiatives to enhance the system of patient care	2
4.	COD 4 Performing surgical drainage of deep neck space infections in adult and pediatric patients (JC)	2
5.	COD 5 Assessing patients with dysphagia or swallowing disorders (JC)	2
6.	COD 8 Providing advanced management for patients with epistaxis (SC) Part A Patient Assessment Part B Procedure	Part A 2 Part B 2
7.	COD 11 Providing surgical management for patients with chronic airway obstruction (SC)	2
8.	COD 13 Assessing and providing surgical management for patients with mucosal squamous cell carcinoma of the head and neck Part A Patient assessment Part B Surgical management	Part A 2 Part B 2

	EPAs Mapped to this rotation:	Total # of Entrustments Expected by the end of COD
9.	COD 14 Assessing and providing surgical management for patients with disorders of the thyroid glands and/or parathyroid glands Part A Patient assessment Part B Procedure	Part A 2 Part B 2
10.	COD 15 Performing superficial parotidectomy surgeries (SC)	2
11.	COD 16 Assessing and managing patients with benign or malignant skin lesions of the head and neck (JC/SC) Part A Patient assessment Part B Resection with clear margins and reconstruction with graft or local flap	Part A 2 Part B 2
12.	COD 17 Managing patients following facial trauma	2
13.	COD 19 Assessing adult and pediatric patients with hearing loss and providing an initial management plan, both surgical and non-surgical (JC/SC) Part A Assessment Part B Procedure Part C Procedure	Part A 2 Part B 2 Part C 2
14.	COD 20 Assessing patients with balance disorder/vertigo and providing initial management plan both surgical and nonsurgical (JC)	2
15.	TTP 1 Providing after hours coverage for an Oto-HNS practice Part A Patient Management Part B Working with referring physician	Part A 2 Part B 2
16.	TTP 2 Coordinating, organizing and executing the surgical day of Core procedures	2
17.	TTP 3 Organizing and managing general Oto-HNS clinics	2
18.	TTP 4 Participating in and/or leading educational or administrative activities	2
19.	TTP 5 Monitoring one's own practice and performance for quality assurance and improvement	2
20.	TTP 6 Developing a personal learning plan for continuing personal and professional development	2

	Other assessments during this rotation:	Tool Location / Platform (e.g. POWER, Entrada):
1.	ITAR	POWER
2.	Operative Log	Excel Workbook

	Key Objectives for this Rotation:	CanMEDS Role(s):
1.	Participate in the post-operative ward and office management of patients who have undergone all forms of otolaryngologic procedures, including running a Resident's Clinic independently.	Medical Expert Leader
2.	Perform the following: lymph node and neck mass biopsy; excision of submandibular glands, branchial cleft cysts and thyroglossal duct cysts; excision of oral cavity lesions; parotidectomy, neck dissection, thyroidectomy and parathyroidectomy, and composite resections, with increasing degree of autonomy.	Medical Expert
3.	Perform ablative head and neck procedures (e.g. composite resections, pharyngolaryngectomies) with increasing degree of autonomy.	Medical Expert
4.	Demonstrate an understanding of the management principles and/or perform surgical repair of mandible fractures including the use of M-M fixation and plates, as well as mid-face fracture repair.	Medical Expert

	Key Objectives for this Rotation:	CanMEDS Role(s):
5.	Demonstrate sophisticated understanding of the hierarchy of reconstructive options for defects in the head and neck. Formulate a plan for reconstruction of head and neck defects with attention to form and function.	Medical Expert
6.	Demonstrate an ability to lead a health care team.	Leader
7.	Discuss all common Otolaryngology procedures with patients and their families in a clear and understandable form, including risks/benefits, informed consent, and post-operative care.	Communicator
8.	Demonstrate a sophisticated approach to auditory and vestibular rehabilitation including surgical and non-surgical options.	Medical Expert
